

CM50266 Case Study 1 Peer Assessment Form

See notes and additional guidance at the end of the form before starting.

This file is a PDF form. When you open it in a pdf viewer you should be able to fill in the form fields. You should not choose the edit pdf file option if provided. And please do not choose to save it in a flattened form. Doing either of these things may make the form unreadable for marking purposes. You can check this by making sure you can still change entries after reopening it.

Identification

Your Case Study 1 ID

ID of Assessed Work

Reasons

Notes

The Your CS1 ID field is the numeric value assigned to each submission. Do not use your username or student id number.

The work for you to review is available for download from moodle.

Each piece of work to be assessed is named XXXXXX.pdf where XXXXXX is the ID of the corresponding piece of work.

Where you do not award a mark, you should provide a reason. Use the labels to indicate to which criteria a reason applies.

Additional guidance on some of the criteria

An additional document called assessment_notes.pdf is available in the download directory. This contains the additional notes to assist you in peer marking.
